SUMMARY

Computer Science student and full-stack developer who builds websites, applications and software, with experience in data handling, automation and AI-assisted development. 3rd Runner Up at the InterCICSkwela Hackathon 2026; Microsoft Student Ambassador and DysrupIT AI Labs mentee with a foundation in back-end development, cloud and SQL.

SKILLS

Languages: Java, Python, JavaScript, TypeScript, SQL, HTML, CSS
Frameworks: React, Next.js, React Native, Node.js, Flask, Electron, Tailwind CSS
Data & Tools: MySQL, PostgreSQL, Supabase, SQLite, Git, GitHub, Docker, Linux, Postman, Figma, Vercel, Playwright
AI & Concepts: ChatGPT, Claude, Copilot, Gemini, Ollama; OOP, RESTful APIs, database design, property-based testing

EXPERIENCE & LEADERSHIP

ITEQs Manager, DLSL Junior Philippines Computer Society (JPCS) 2026 – Present
- Design, build and maintain software applications supporting the organization's projects and operations.
- Plan and manage JPCS events and projects, working with officers and committees on technical solutions.

Mentee, DysrupIT AI Labs (De La Salle Lipa) 2026 – Present
- Work on DysrupIT projects for mentees while learning from AI Labs mentors in regular in-person sessions.

Devcon Volunteer, Devcon Manila 2026 – Present
- Backend Development Volunteer for community projects; supported initiatives including the “Code Smarter: Modern Software Development with AI” webinar.

Computer Science Program Coordinator, DLSL Student Government, CITE Council 2025 – 2026
- Assisted Computer Science students with academic and administrative concerns and helped run CITE events.
- Event Head for the “ArduiEvolution” Arduino Workshop and Seminar, overseeing planning and day-of execution.

Earlier roles: Manpower Officer, Red Cross Youth; Intelligence Officer, Aerospace Cadets of the Philippines (Holy Trinity School of Padre Garcia) 2021 – 2024

PROJECTS

BarkStudy (Electron, React, TypeScript)
- Windows study app with spaced-repetition flashcards and an on-screen dog that escalates when reviews are skipped, within a user-set intensity cap.
- Behavior rules in a pure TypeScript engine; eight safety invariants verified with exhaustive state exploration, property-based tests and Playwright.

Lokal.MD (Python, Streamlit, Ollama, SQLite)
- Offline clinical documentation and medication-safety workstation for rural health units, built with a team of three at the AppBuildersPH Hackathon 2026.
- Local Whisper transcribes Taglish speech, a local Ollama model drafts SOAP notes, and a rules engine checks contraindications, allergies and dosages; 94 passing tests.

VeriFund PH (Next.js, TypeScript, Tailwind CSS, Vercel)
- Aid distribution platform to cut ghost beneficiaries and duplicate claims: Citizen Portal with QR identity, mobile-first Field Console and Management dashboard.
- Built with a team of four at the Batang Techno · InterCICSkwela Hackathon 2026 (3rd Runner Up).

CERTIFICATIONS

Associate Data Engineer in SQL, DataCamp · **IBM Backend Development**, IBM / Coursera · 2026
Microsoft Applied Skills: Get started with Azure management tasks, Microsoft Learn · 2026
Python (4★ Silver Badge), HackerRank · 2026 · **DLSL Java Programming 1**, Codechum · 2025

ACHIEVEMENTS & PARTICIPATION

Hackathons & competitions: InterCICSkwela V2.0 (3rd Runner Up), AppBuildersPH, Pandesal.DEV Wackathon, SIKAPTALA Hackathon, GCash Ideathon (2026); Old St. Hackathon, JPCS IQnnect Quiz Bee (1st Place), SIKAPTALA Java Skills, National IT Skills Competition in Java (2025)
Recognition: Microsoft Student Ambassador (2026); DataCamp Scholarship (2025, 2026); 2nd and 3rd Honor Awardee, De La Salle Lipa (2024 – 2025)
Events: DysrupIT Connecting Innovators, Builders & Future Leaders (2026); JPCS UpTech and Masterclass 101 (2025)

EDUCATION

De La Salle Lipa, College (Computer Science) 2024 – Present
Holy Trinity School of Padre Garcia, High School; STEM strand (2022 – 2024) 2018 – 2024
